### INDEPENDENT AUDITOR'S REPORT

### To the Members of API Holdings Limited

#### **Report on the Audit of the Consolidated Financial Statements**

#### Opinion

- 1. We have audited the accompanying consolidated financial statements of API Holdings Limited (hereinafter referred to as the "Holding Company") and its subsidiaries (Holding Company and its subsidiaries together referred to as "the Group"), and its associate companies (refer Note 53 (a) to the attached consolidated financial statements), which comprise the consolidated Balance Sheet as at March 31, 2023, and the consolidated Statement of Profit and Loss (including Other Comprehensive Income), the consolidated Statement of Changes in Equity and the consolidated Statement of Cash Flow for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information (hereinafter referred to as "the consolidated financial statements").
- 2. In our opinion and to the best of our information and according to the explanations given to us, the aforesaid consolidated financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the consolidated state of affairs of the Group, and its associate companies as at March 31, 2023, of consolidated total comprehensive Income (comprising of loss and other comprehensive income), consolidated changes in equity and its consolidated cash flows for the year then ended.

#### **Basis for Opinion**

3. We conducted our audit in accordance with the Standards on Auditing (SAs) specified under Section 143(10) of the Act. Our responsibilities under those Standards are further described in the "Auditor's Responsibilities for the Audit of the Consolidated Financial Statements" section of our report. We are independent of the Group, and its associate companies in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in India in terms of the Code of Ethics issued by the Institute of Chartered Accountants of India and the relevant provisions of the Act, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in sub-paragraph 13 of the Other Matters section below, is sufficient and appropriate to provide a basis for our opinion.

#### **Emphasis of Matter**

4. We draw your attention to Note 58 to the Consolidated Financial Statements regarding preparation of financial statements of one of the subsidiary in the group, Care Easy Health Tech Private Limited on a realisable value basis as the Company has ceased to carry on its business operations. Our opinion is not modified in respect of this matter.

#### **Other Information**

5. The Holding Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Director's report but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed and the reports of the other auditors as furnished to us (Refer paragraph 13 below), we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

# Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

- The Holding Company's Board of Directors is responsible for the preparation and presentation of 6. these consolidated financial statements in term of the requirements of the Act that give a true and fair view of the consolidated financial position, consolidated financial performance and consolidated cash flows, and changes in equity of the Group including its associate companies and in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under Section 133 of the Act. The respective Board of Directors of the companies included in the Group and of its associate companies are responsible for maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Group and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring accuracy and completeness of the accounting records, relevant to the preparation and presentation of the consolidated financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error, which have been used for the purpose of preparation of the consolidated financial statements by the Directors of the Holding Company, as aforesaid.
- 7. In preparing the consolidated financial statements, the respective Board of Directors of the companies included in the Group and of its associate companies are responsible for assessing the ability of the Group and of its associate companies to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.
- 8. The respective Board of Directors of the companies included in the Group and of its associate companies are responsible for overseeing the financial reporting process of the Group and of its associate companies.

#### Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

- 9. Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.
- 10. As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:
  - Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
  - Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under Section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Holding company has adequate internal financial controls with reference to consolidated financial statements in place and the operating effectiveness of such controls.
  - Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
  - Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the ability of the Group and its associate companies to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report.
  - Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
  - Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group and its associate companies to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit of the financial statements of such entities included in the consolidated financial statements of which we are the independent auditors. For the other entities included in the consolidated financial statements, which have been audited by other auditors, such other auditors remain responsible for the direction, supervision and performance of the audits carried out by them. We remain solely responsible for our audit opinion.

INDEPENDENT AUDITOR'S REPORT To the Members of API Holdings Limited Report on the Consolidated Financial Statements Page 4 of 7

- 11. We communicate with those charged with governance of the Holding Company and such other entities included in the consolidated financial statements of which we are the independent auditors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
- 12. We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

#### **Other Matters**

13. We did not audit the financial statements of 7 subsidiaries, whose financial statements reflect total assets of Rs 16,705.33 million and net assets of Rs 7,480.53 million as at March 31, 2023, total revenue of Rs. 16,735.92 million, total comprehensive income (comprising of loss and other comprehensive income) of Rs 2,009.53 million and net cash flows amounting to Rs 277.95 million for the year ended on that date, as considered in the consolidated financial statements. The consolidated financial statements also include the Group's share of total comprehensive income (comprising of profit and other comprehensive income) of Rs. 31.83 million for the year ended March 31, 2023 as considered in the consolidated financial statements have not been audited by us. These financial statements have been audited by other auditors whose reports have been furnished to us by the Management, and our opinion on the consolidated financial statements insofar as it relates to the amounts and disclosures included in respect of these subsidiaries, and associate companies and our report in terms of sub-section (3) of Section 143 of the Act including report on Other Information insofar as it relates to the aforesaid subsidiaries, and associate companies, is based solely on the reports of the other auditors.

Our opinion on the consolidated financial statements, and our report on Other Legal and Regulatory Requirements below, is not modified in respect of the above matters with respect to our reliance on the work done and the reports of the other auditors.

### **Report on Other Legal and Regulatory Requirements**

14. As required by paragraph 3(xxi) of the Companies (Auditor's Report) Order, 2020 ("CARO 2020"), issued by the Central Government of India in terms of sub-section (11) of Section 143 of the Act, we report that the auditors of the below mentioned subsidiaries and associates of the Holding Company have given the following comments in their CARO 2020 report on the standalone financial statements of the below mentioned subsidiaries and associates, as reproduced below :

## Report on the Internal Financial Controls with reference to Consolidated Financial Statements under clause (i) of sub-section 3 of Section 143 of the Act

1. In conjunction with our audit of the consolidated financial statements of the Company as of and for the year ended March 31, 2023, we have audited the internal financial controls with reference to financial statements of API Holdings Limited (hereinafter referred to as "the Holding Company") and its subsidiary companies, and its associate companies, which are companies incorporated in India, as of that date.

#### Management's Responsibility for Internal Financial Controls

2. The respective Board of Directors of the Holding Company, its subsidiary companies, and its associate companies, to whom reporting under clause (i) of sub section 3 of Section 143 of the Act in respect of the adequacy of the internal financial controls with reference to financial statements is applicable, which are companies incorporated in India, are responsible for establishing and maintaining internal financial controls based on [for example, "internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting ("the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the respective company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

#### Auditor's Responsibility

- 3. Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note issued by the ICAI and the Standards on Auditing deemed to be prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to financial statements was established and maintained and if such controls operated effectively in all material respects.
- 4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

### Annexure A to Independent Auditor's Report

Referred to in paragraph 15(f) of the Independent Auditor's Report of even date to the members of API Holdings Limited on the consolidated financial statements for the year ended March 31, 2023 Page 2 of 3

5. We believe that the audit evidence we have obtained and the audit evidence obtained by the other auditors in terms of their reports referred to in the Other Matters paragraph below is sufficient and appropriate to provide a basis for our audit opinion on the Holding Company's internal financial controls system with reference to consolidated financial statements.

### Meaning of Internal Financial Controls with reference to financial statements

6. A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls with reference to financial statements

7. Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

8. In our opinion, the Holding Company, its subsidiary companies, and its associate companies, which are companies incorporated in India, have, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

#### Annexure A to Independent Auditor's Report

Referred to in paragraph 15(f) of the Independent Auditor's Report of even date to the members of API Holdings Limited on the consolidated financial statements for the year ended March 31, 2023 Page 3 of 3

#### **Other Matters**

9. Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls with reference to financial statements in so far as it relates to seven subsidiary companies, and three associates companies, which are companies incorporated in India, is based on the corresponding reports of the auditors of such companies incorporated in India. Our opinion is not modified in respect of this matter.

#### Note 2: Summary of significant accounting policies

This note provides a list of the significant accounting policies adopted in the preparation of these consolidated financial statements. These policies have been consistently applied to all the periods presented, unless otherwise stated. These financial statements are for the group consisting of API Holdings Limited, its subsidiaries (collectively referred to as "Group") and its associates.

Notes to consolidated financial statements

#### A. Basis of preparation

The group has incurred cash losses during the financial years ended March 31, 2023. Further, there has been a breach of certain covenants relating to the non-convertible debentures issued by the group. These consolidated financial statements have been prepared on a going concern basis, considering the business plan for 12 months from the reporting period as approved by the Board of Directors of the Holding Company and that of its subsidiaries and associates, which includes planned reduction in certain recurring and non-recurring costs (e.g. employee benefits, marketing and legal and professional fees, etc.), funds raised through the rights issue of equity shares subsequent to the balance sheet date, restructuring of terms for non-convertible debentures (including waiver of breach of covenants) subsequent to the reporting period, and binding term sheets entered by the Company with certain existing and new investors. Based on the above, the group is confident of its ability to meet the funds requirement and to continue its business as a going concern and accordingly, the financial statements have been prepared on that basis.

#### (i) Compliance with Ind AS

The consolidated financial statements comply in all material aspects with the Indian Accounting Standards notified under Section 133 of the Companies Act, 2013 (the Act) [Companies (Indian Accounting Standards) Rules, 2015] and other relevant provisions of the Act.

These financial statements were authorised for issue by the Company's Board of Directors on December 05, 2023.

#### (ii) Historical cost convention

The financial statements have been prepared on a historical cost basis, except for the following:

- certain financial assets and liabilities (including derivative instruments) and contingent consideration (if any) is measured at fair value;
- assets held for sale measured at fair value less cost to sell;
- defined benefit plans plan assets measured at fair value; and
- share-based payments

#### (iii) New and amended standards adopted by the Group

The Group has applied the following amendments to Ind AS for the first time for their annual reporting period ended March 31, 2023:

- COVID-19 related concessions amendments to Ind AS 116
- Interest Rate Benchmark Reform amendments to Ind AS 109 and Ind AS 107

The amendments listed above did not have any material impact on the amounts recognised in prior periods and are not expected to significantly affect the current or future periods.

The Group has applied the following amendments to the Schedule III Division II of the Companies Act 2013 while preparing the consolidated financial statements:

- Additional disclosures related to ageing of trade receivables, trade payables, unbilled revenue, capital work in progress, intangibles under developments etc.
- Additional disclosures related to title deeds of immovable properties, ratios, corporate social
  responsibility, loans given, utilisation borrowed funds and securities premium, reconciliation of returns
  submitted to banks with books of accounts, delay in registration of charges outstanding, promoter's
  shareholding, relationship with struck off companies, surrendered income, revaluation of Property,
  plant and equipment and valuation of investment properties, etc.
- Presentation of lease liabilities and current maturities of long-term borrowings in the financial statements.

The Group has applied the above amendments to the extent applicable to these consolidated financial statements.

Notes to consolidated financial statements

- (iv) New and amended standards issued but not effective
  - The Ministry of Corporate Affairs has vide notification dated 31 March 2023 notified the Companies (Indian Accounting Standards) Amendment Rules, 2023 (the 'Rules'), which amend certain accounting standards, and are effective 1 April 2023. The Rules predominantly amend Ind AS 12, Income Taxes and Ind AS 1, Presentation of Financial Statements. The other amendments to Ind AS notified by these rules are primarily in the nature of clarifications. These amendments are not expected to have a material impact on the group in the current or future reporting periods and on foreseeable future transactions. Specifically, no changes would be necessary as a consequence of amendments made to Ind AS 12 as the group's accounting policy already complies with the now mandatory treatment.

#### (v) Measurement of fair values

The Group's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities. The Company has an established control framework with respect to the measurement of fair values, which includes overseeing all significant fair value measurements, including Level 3 fair values by the management. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified. The Company's accounting policies and disclosures require the measurement of fair values, for both financial and non-financial assets and liabilities.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorized into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: inputs other than quoted prices included in Level I that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs).

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorized in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement. The Group recognizes transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

#### (vi) Use of estimates and judgements

The preparation of the consolidated financial statements in conformity with Ind AS requires management to make estimates, judgements and assumptions. These estimates, judgements and assumptions affect the application of accounting policies and the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and reported amounts of revenues and expenses during the period. Accounting estimates could change from period to period. Actual results could differ from those estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates. Changes in estimates are reflected in the financial statements in the period in which changes are made and, if material, their effects are disclosed in the notes to the financial statements.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized prospectively.

Notes to consolidated financial statements

Significant judgements:

a) <u>Recognition of deferred tax assets</u>:

The Group recognises deferred tax assets only to the extent that it is probable that future taxable profits will be available against which the tax losses can be utilized. Estimation of the level of future taxable profits is therefore required to determine the appropriate carrying value of the deferred tax assets. Considering past losses, uncertainty of its ability to generate future taxable profit in the parent and certain subsidiaries, the Group has recognised deferred tax assets in the parent entity and certain subsidiaries only to the extent of deferred tax liabilities.

b) **Business combination**:

In accounting for business combinations, judgment is required in identifying the acquirer and acquiree for the purpose of business combination and whether an identifiable intangible asset is to be recorded separately from goodwill. Additionally, estimating the acquisition date fair value of the identifiable assets (including useful life estimates) and liabilities acquired, and contingent consideration assumed involves management judgment. These measurements are based on information available at the acquisition date and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgments, estimates, and assumptions can materially affect the results of operations.

c) Investments

A judgement is involved in determining whether the investor has a significant influence over the investee. It is dependent on various factors such as the quantum of investments, representation on board of directors or other governing bodies, participation in policy making processes, including decisions on dividend distributions, material transactions between investor and investee, interchange of managerial personnel or provision of essential technical information. The Group has determined that it has a significant influence over its investee, Marg ERP Limited, with 49% equity interest along with a call option on remaining equity interest which is exercisable at a future date. The Group does not have a significant influence over Aarman Solutions Private Limited considering, 19.99% equity interest in the investee with a written call on its entire interest in investee exercisable at fair value at any time, absence of board representation and absence of voting rights on policy making decisions.

#### d) Going concern assessment

The business plan for 12 months from reporting period end is based on management estimates of future revenue, planned reduction of recurring costs, equity and debt commitments which are based on information available up to the date of issue of these consolidated financial statements and are based on expectations and assumptions that have been deemed reasonable by management. Changes in these judgments, estimates, and assumptions can materially affect the management assessment of the going concern.

Critical estimates:

a) Fair value of employee share options

The fair valuation of the employee share options is based on the Black-Scholes Model used for valuation of options. Key assumptions include expected volatility, share price, expected dividends, term and discount rate, under this pricing model.

#### b) Impairment of goodwill

The Company tests whether goodwill has suffered any impairment loss on an annual basis. The recoverable amount of the cash generating units (CGUs) is determined based on higher of value-in-use calculations or fair value less cost to sell which require the use of assumptions. The calculations use cash flow projections based on financial budgets approved by management. Cash flows beyond the initial period are extrapolated using the estimated growth rates. The revenue or earnings multiples used in the fair value less cost to sale estimates is based on that of the comparable companies. These growth

Notes to consolidated financial statements

rates are consistent with forecasts included in industry reports specific to the industry in which each CGU operates.

(vii) Current/non-current classification

The Group classifies an asset as current when:

- it expects to realise the asset or intends to sell or consume it in normal operating cycle
- it holds the asset primarily for the purpose of trading
- it expects to realise the assets within twelve months after the reporting period, or
- the asset is Cash or cash equivalent unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

The Group classifies a liability as current when:

- it expects to settle the liability in normal operating cycle
- it holds the liability primarily for the purpose of trading
- the liability is due to be settled within twelve months after the reporting period, or
- there is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

All other liabilities are classified as non-current.

#### Operating cycle

Operating cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents. Based on the nature of operations and the time between the acquisition of assets for processing and their realisation in cash or cash equivalents, the Group has ascertained its operating cycle as twelve months for the purpose of current and non-current classification of assets and liabilities.

#### B. Basis of consolidation and Equity accounting

Subsidiaries are all entities over which the Group has control. The Group controls an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power to direct the relevant activities of the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the Group.

The Group combines the financial statements of the parent and its subsidiaries line by line adding together like items of assets, liabilities, equity, income, and expenses. Intercompany transactions, balances, and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit and loss, consolidated statement of changes in equity and consolidated balance sheet, respectively.

The Group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised within equity.

Notes to consolidated financial statements

Associates are all entities over which the Group has significant influence but not control or joint control. This is generally the case where the Group holds between 20% and 50% of the voting rights. Investments in associates are accounted for using the equity method of accounting, after initially being recognised at cost.

Under the equity method of accounting, the investments are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post-acquisition profits or losses of the investee in profit and loss, and the Group's share of other comprehensive income of the investee in other comprehensive income. Dividends received or receivable from associates are recognised as a reduction in the carrying amount of the investment.

Where the Group's share of losses in an equity-accounted investment equals or exceeds its interest in the entity, including any other unsecured long-term receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the other entity.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in these entities. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of equity accounted investees have been changed where necessary to ensure consistency with the policies adopted by the Group.

The carrying amount of equity accounted investments are tested for impairment in accordance with the policy described in note 2(I) below.

When the Group ceases to consolidate or equity account an investment because of a loss of control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. This fair value becomes the initial carrying amount for the purposes of subsequent accounting for the retained interest as an associate, joint venture or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the Group had directly disposed of the related assets or liabilities. This may mean that amounts previously recognised in other comprehensive income are reclassified to profit or loss. If the ownership interest in an associate is reduced but significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

#### C. Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

The Managing Director and Chief Executive Officer of the Company, which assesses the financial performance and position of the Group as a whole and makes strategic decisions, has been identified as the chief operating decision maker.

#### D. Foreign currency translation

#### (ii) Functional and presentation currency

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The consolidated financial statements are presented in Indian rupee (Rupees), which is the functional and presentation currency of the Group.

#### (ii) Transactions and balances

Foreign currency transactions are translated into the functional currency using the exchange rates at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies at year end exchange rates are recognised in profit or loss.

Notes to consolidated financial statements

All the foreign exchange gains and losses are presented in the statement of profit and loss on a net basis with other income/other expenses as applicable. Foreign exchange differences arising on foreign currency borrowings are presented in the statement of profit and loss, within finance costs.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. For example, translation differences on non-monetary assets and liabilities such as equity instruments held at fair value through profit or loss are recognised in profit or loss as part of the fair value gain or loss and translation differences on non-monetary assets such as equity investments classified as at FVOCI are recognised in other comprehensive income.

#### E. Revenue recognition

#### (ii) Sale of goods

The Group sells a range of pharmaceutical and cosmetic goods. Sales are recognised when control of the products is transferred, which occurs when the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract, the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

Revenue from these sales is recognised based on the price specified in the contract, net of the estimated volume discounts and goods and service tax. Accumulated experience is used to estimate and provide for the discounts, using the expected value method, and revenue is only recognised to the extent that it is highly probable that a significant reversal will not occur. A refund liability (included in other current liabilities) and a right to recover the returned goods (included in other current assets) are recognised for the products expected to be returned. Accumulated experience is used to estimate such returns at the time of sale at a portfolio level.

No significant element of financing is deemed present as the sales are made with a credit term consistent with market practice.

A receivable is recognised when the goods are delivered as this is the point in time that the consideration is unconditional because only the passage of time is required before the payment is due.

#### (ii) Sale of services

The Group provides services of delivery person, software, diagnostic services such as testing and imaging, and technology platform services. Revenue is recognised in the period in which the services are rendered. For fixed-price contracts, revenue is recognised based on the actual service provided to the end of the reporting period as a proportion of the total services to be provided. Revenue from testing and imaging services is recognized at a point in time once the testing samples are processed for requisitioned diagnostic tests.

Some contracts include multiple performance obligations, such as the sale of hardware and sale of software. The hardware can be procured from any other party and does not include an integration service. It is therefore accounted for as a separate performance obligation. If contracts include the sale of hardware, revenue for the hardware is recognised at a point in time when the hardware is delivered, the legal title has passed, and the customer has accepted the hardware. Where the contracts include multiple performance obligations, the transaction price is allocated to each performance obligation based on the stand-alone selling prices.

Notes to consolidated financial statements

The customer pays a fixed amount based on a payment schedule. If the services rendered by the Group exceed the payment, a contract asset is recognised. If the payments exceed the services rendered, a contract liability is recognised. If the contract includes an hourly fee, revenue is recognized in the amount to which the Group has a right to invoice. The revenue is measured based on transaction price, which is the fair value of consideration received or receivable, and is net of discounts, allowances, returns, goods and service tax.

Customers are invoiced on a periodic basis and consideration is payable when invoiced in accordance with the credit period.

#### (iii) Customer loyalty programme

The Group operates a loyalty programme where customers accumulate points for purchases made. A contract liability for the award points is recognised at the time of the sale. Revenue is recognised when the points are redeemed or when they expire. A contract liability is recognized until the points are redeemed or expire.

#### (iv) Financing components

The Group does not expect to have any contracts where the period between the transfer of the promised goods or services to the customer and payment by the customer exceeds one year. As a consequence, the Group does not adjust any of the transaction prices for the time value of money. No significant element of financing is deemed present as the sales are made with a credit term consistent with market practice.

#### F. Income tax

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation and considers whether it is probable that a taxation authority will accept an uncertain tax treatment. The Group measures its tax balances either based on the most likely amount or the expected value, depending on which method provides a better prediction of the resolution of the uncertainty.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognised if they arise from the initial recognition of goodwill. Deferred income tax is also not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting profit nor taxable profit (tax loss).

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses only if it is probable that future taxable amounts will be available to utilise those temporary differences and losses.

Deferred tax liabilities are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries where the Group is able to control the timing of the reversal of the temporary differences and it is probable that the differences will not reverse in the foreseeable future.

Notes to consolidated financial statements

Deferred tax assets are not recognised for temporary differences between the carrying amount and tax bases of investments in subsidiaries where it is not probable that the differences will reverse in the foreseeable future and taxable profit will not be available against which the temporary difference can be utilised.

Deferred tax assets and liabilities are offset where there is a legally enforceable right to offset current tax assets and liabilities and where the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the entity has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and deferred tax is recognised in profit or loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

#### G. Leases

As a lessee

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. Contracts may contain both lease and non-lease components. The Group allocates the consideration in the contract to the lease and non-lease components based on their relative stand-alone prices. However, for leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable
- variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- amounts expected to be payable by the Group under residual value guarantees
- the exercise price of a purchase option if the Group is reasonably certain to exercise that option, and
- payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option.

Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability. The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

To determine the incremental borrowing rate, the Group:

- where possible, uses recent third-party financing received by the individual lessee as a starting point, adjusted to reflect changes in financing conditions since third party financing was received.
- uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for leases, which does not have recent third-party financing, and
- makes adjustments specific to the lease, e.g. term, country, currency and security.

If a readily observable amortising loan rate is available to the individual lessee (through recent financing or market data) which has a similar payment profile to the lease, then the group entities use that rate as a starting point to determine the incremental borrowing rate.

Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

Notes to consolidated financial statements

- the amount of the initial measurement of lease liability
- any lease payments made at or before the commencement date less any lease incentives received
- any initial direct costs, and
- restoration costs.

Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases of equipment and all leases of low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less.

#### As a lessor

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term. Initial direct costs incurred in obtaining an operating lease are added to the carrying amount of the underlying asset and recognised as expense over the lease term on the same basis as lease income. The respective leased assets are included in the balance sheet based on their nature.

#### H. Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a business comprises the

- fair values of the assets transferred;
- liabilities incurred to the former owners of the acquired business;
- equity interests issued by the Group; and
- fair value of any asset or liability resulting from a contingent consideration arrangement.

Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. The Group recognises any noncontrolling interest in the acquired entity on an acquisition-by-acquisition basis either at fair value or at the noncontrolling interest's proportionate share of the acquired entity's net identifiable assets.

Acquisition-related costs are expensed as incurred.

The excess of the:

- consideration transferred;
- amount of any non-controlling interest in the acquired entity,
- amount of pre-existing relationships with the acquiree, and
- acquisition-date fair value of any previous equity interest in the acquired entity

over the fair value of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the business acquired, the difference is recognised in other comprehensive income and accumulated in equity as capital reserve provided there is clear evidence of the underlying reasons for classifying the business combination as a bargain purchase. In other cases, the bargain purchase gain is recognised directly in equity as capital reserve.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

Notes to consolidated financial statements

If the business combination is achieved in stages, the acquisition date carrying value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date. Any gains or losses arising from such remeasurement are recognised in profit or loss or other comprehensive income, as appropriate.

#### (I) Impairment of assets

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash inflows which are largely independent of the cash inflows from other assets or group of assets (cash-generating units). Non-financial assets other than goodwill that suffered an impairment are reviewed for possible reversal of the impairment at the end of each reporting period.

#### (J) Cash and cash equivalents

For the purpose of presentation in the statement of cash flows, cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value, and bank overdrafts which are repayable on demand and form an integral part of the Group's cash management. Bank overdrafts are shown within borrowings in current liabilities in the balance sheet.

#### (K) Trade receivables

Trade receivables are amounts due from customers for goods sold or services performed in the ordinary course of business. Trade receivables are recognised initially at the amount of consideration that is unconditional unless they contain significant financing components, when they are recognised at fair value. The Group holds the trade receivables with the objective of collecting the contractual cash flows and therefore measures them subsequently at amortised cost using the effective interest method, less loss allowance.

#### (L) Inventories

Inventories are stated at the lower of cost and net realisable value. Cost comprises cost of purchases and all other costs incurred in bringing the inventories to their present location and condition. Costs are assigned to individual items of inventory on the basis of weighted average cost. Costs of purchased inventory are determined after deducting rebates and discounts. Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs necessary to make the sale.

#### (M) Investments and other financial assets

#### (i) Classification

The Group classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortised cost.

The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in equity instruments that are not held for trading, this will depend on whether the Group has made an irrevocable election at the time of initial recognition to account for the equity investment at FVOCI.

Notes to consolidated financial statements

The Group reclassifies debt investments when and only when its business model for managing those assets changes.

#### (ii) Recognition

Regular way purchases and sales of financial assets are recognised on trade-date, being the date on which the Group commits to purchase or sale the financial asset.

#### (iii) Measurement

At initial recognition, the Group measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

#### Debt instruments

Subsequent measurement of debt instruments depends on the Group's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Group classifies its debt instruments:

- Amortised cost: Assets that are held for collection of contractual cash flows where those cash flows
  represent solely payments of principal and interest are measured at amortised cost. Interest income
  from these financial assets is included in Other Income using the effective interest rate method. Any
  gain or loss arising on derecognition is recognised directly in profit or loss and presented in other
  income/ other expenses.
- Fair value through other comprehensive income (FVOCI): Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest income and foreign exchange gains and losses which are recognised in profit and loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other income / other expenses. Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other gains/(losses) and impairment expenses are presented as separate line item in statement of profit and loss.
- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss is recognised in profit or loss and presented net within other income/ other expenses in the period in which it arises. Interest income from these financial assets is included in other income.

#### Equity instruments

The Group subsequently measures all equity investments at fair value. Where the Group's management has elected to present fair value gains and losses on equity investments in other comprehensive income, there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment. Dividends from such investments are recognised in profit or loss as other income when the Group's right to receive payments is established.

Changes in the fair value of financial assets at fair value through profit or loss are recognised in other income/ other expenses in the statement of profit and loss. Impairment losses (and reversal of impairment losses) on equity investments measured at FVOCI are not reported separately from other changes in fair value.

Notes to consolidated financial statements

#### (iv) Impairment of financial assets

The Group assesses on a forward looking basis the expected credit losses associated with its assets carried at amortised cost and FVOCI debt instruments. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables only, the Group applies the simplified approach required by Ind AS 109, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

#### (v) Derecognition of financial assets

A financial asset is derecognised only when

- The Group has transferred the rights to receive cash flows from the financial asset or
- retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the cash flows to one or more recipients.

Where the entity has transferred an asset, the Group evaluates whether it has transferred substantially all risks and rewards of ownership of the financial asset. In such cases, the financial asset is derecognised. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not derecognised.

Where the entity has neither transferred a financial asset nor retains substantially all risks and rewards of ownership of the financial asset, the financial asset is derecognised if the Group has not retained control of the financial asset. Where the Group retains control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset.

#### (vi) Income recognition

**Interest income** : Interest income from financial assets at fair value through profit or loss is disclosed as interest income within other income. Interest income on financial assets at amortised cost and financial assets at FVOCI is calculated using the effective interest method is recognised in the statement of profit and loss as part of other income. Interest income is calculated by applying the effective interest rate to the gross carrying amount of a financial assets the effective interest rate is applied to the net carrying amount of the financial assets the effective interest rate is applied to the net carrying amount of the financial asset (after deduction of the loss allowance).

**Dividends** : Dividends are recognised as other income in profit or loss when the right to receive payment is established. This applies even if they are paid out of pre-acquisition profits, unless the dividend clearly represents a recovery of part of the cost of the investment.

#### (N) Derivatives and hedging activities

Derivatives are only used for economic hedging purposes and not as speculative activities. However, where derivatives do not meet the hedge accounting criteria, they are classified as 'held for trading' for accounting purposes and are accounted for at FVPL. They are presented as current assets or liabilities to the extent they are expected to be settled within 12 months after the end of the reporting period.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured to their fair value at the end of each reporting period. The Group does not designate derivatives contracts as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other income/other expenses.

**Embedded derivatives** : Derivatives embedded in a host contract that is an asset within the scope of Ind AS 109, Financial Instruments are not separated. Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

Notes to consolidated financial statements

Derivatives embedded in all other host contract are separated only if the economic characteristics and risks of the embedded derivative are not closely related to the economic characteristics and risks of the host and are measured at fair value through profit or loss. Embedded derivatives closely related to the host contracts are not separated.

#### (O) Offsetting financial instruments

Financial assets and liabilities are offset and the net amount is reported in the balance sheet where there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

#### (P) Property, plant and equipment

All items of property, plant and equipment are stated at historical cost less depreciation. Historical cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only

when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

#### Depreciation methods, estimated useful lives and residual value

Depreciation is calculated using the written down value method to allocate the cost of the assets, net of their residual values, over their estimated useful lives as follows:

- Computer hardware 3 years
- Office equipment 5 years
- Vehicles 10 years
- Plant and machinery 15 years
- Electric fittings/installation 10 years

Leasehold improvements are depreciated, using the straight-line method, over the shorter of their useful life or the lease term, unless the entity expects to use the assets beyond the lease term.

The useful lives have been determined by the management which is in accordance with those specified by Schedule II to the Companies Act; 2013, in order to reflect the actual usage of the assets.

The useful lives are reviewed and adjusted if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with carrying amount. These are included in profit or loss within other income/other expenses.

#### (Q) Intangible assets

#### (i) Goodwill

Goodwill on acquisitions of subsidiaries and businesses is included in intangible assets. Goodwill is not amortised but it is tested for impairment annually, or more frequently if events or changes in circumstances indicate that it might be impaired, and is carried at cost less accumulated impairment losses. Gains and losses

Notes to consolidated financial statements

on the disposal of an entity/business include the carrying amount of goodwill relating to the entity/business sold.

Goodwill is allocated to cash-generating units for the purpose of impairment testing. The allocation is made to those cash-generating units or Groups of cash-generating units that are expected to benefit from the business combination in which the goodwill arose. The units or group of units are identified at the lowest level at which goodwill is monitored for internal management purposes.

#### (ii) Computer software

Costs associated with maintaining software programmes are recognised as an expense as incurred. Development costs that are directly attributable to the design and testing of identifiable and unique software products controlled by the Group are recognised as intangible assets where the following criteria are met:

- it is technically feasible to complete the software so that it will be available for use
- management intends to complete the software and use or sell it
- there is an ability to use or sell the software
- it can be demonstrated how the software will generate probable future economic benefits
- adequate technical, financial and other resources to complete the development and to use or sell the software are available, and
- the expenditure attributable to the software during its development can be reliably measured.

Directly attributable costs that are capitalised as part of the software include employee costs and an appropriate portion of relevant overheads. Capitalised development costs are recorded as intangible assets and amortised from the point at which the asset is available for use.

#### (iii) Research and development

Research expenditure and development expenditure that do not meet the criteria in (ii) above are recognised as an expense as incurred. Development costs previously recognised as an expense are not recognised as an asset in a subsequent period.

#### (iv) Amortisation methods and periods

The Group amortises intangible assets with a finite useful life using the straight-line method over the following period:

- Customer relationship 5 to 20 years
- Brand name 20 years
- Technology platforms 4 years
- Computer software 3 years
- Non-compete arrangements 5 years
- Other intangibles 3 years

#### (R) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of the reporting period which are unpaid. Trade and other payables are presented as current liabilities unless payment is not due within 12 months after the reporting period.

They are recognised initially at their fair value and subsequently measured at amortised cost using the effective interest method.

Notes to consolidated financial statements

#### (S) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in profit or loss over the period of the borrowings using the effective interest method. Fees paid on the establishment of loan facilities are recognised as transaction costs of the loan to the extent that it is probable that some or all of the facility will be drawn down. In this case, the fee is deferred until the draw-down occurs. To the extent there is no evidence that it is probable that some or all of the facility will be drawn down, the fee is capitalised

as a prepayment for liquidity services and amortised over the period of the facility to which it relates.

The fair value of the liability portion of optionally convertible debentures is determined using a market interest rate for an equivalent non-convertible debenture. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or redemption of the debentures. The remainder of the proceeds is attributable to the equity portion of the compound instrument. This is recognised and included in shareholders' equity, net of income tax effects, and not subsequently remeasured.

Borrowings are removed from the balance sheet when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss as other income/ expenses.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

The group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period. Where there is a breach of a material provision of a long- term loan arrangement on or before the end of the reporting period with the effect that the liability becomes payable on demand on the reporting date, the entity does not classify the liability as current, if the lender agreed, after the reporting period and before the approval of the financial statements for issue, not to demand payment as a consequence of the breach.

#### (T) Borrowing costs

General and specific borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Qualifying assets are assets that necessarily take a substantial period of time to get ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. Other borrowing costs are expensed in the period in which they are incurred.

#### (U) Provisions and contingent liabilities

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Notes to consolidated financial statements

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pretax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

A contingent liability is a possible obligation that arises from a past event, with the resolution of the contingency dependent on uncertain future events, or a present obligation where no outflow is probable. Material contingent liabilities are disclosed in the financial statements unless the possibility of an outflow of economic resources is remote. Contingent assets are not recognized in the financial statements unless it is virtually certain that the future event will confirm the asset's existence and the asset will be realised.

#### (V) Employee benefits

#### (i) Short-term obligations

Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

#### (ii) Other long-term employee benefit obligations

The Group has liabilities for earned leave that are not expected to be settled wholly within 12 months after the end of the period in which the employees render the related service. These obligations are therefore measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the appropriate market yields at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurements as a result of experience adjustments and changes in actuarial assumptions are

recognised in profit or loss.

The obligations are presented as current liabilities in the balance sheet if the entity does not have an unconditional right to defer settlement for at least twelve months after the reporting period, regardless of when the actual settlement is expected to occur.

#### (iii) Post-employment obligations

The Group operates the following post-employment schemes:

- (a) defined benefit plans such as gratuity; and
- (b) defined contribution plans such as provident fund.

#### Defined benefit plans

The liability or asset recognised in the balance sheet in respect of defined benefit plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included

Notes to consolidated financial statements

in retained earnings in the consolidated statement of changes in equity and in the consolidated statement of assets and liabilities.

Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

#### Defined contribution plans

The Group pays provident fund contributions to publicly administered provident funds as per local regulations. The Group has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expense when they are incurred.

#### (iv) Share-based payments

Share-based compensation benefits are provided to employees via Employee Stock Option Plans.

#### **Employee options**

The fair value of options granted under the Plan is recognised as an employee benefits expense with a corresponding increase in equity. The total amount to be expensed is determined by reference to the fair value of the options granted:

- including any market performance conditions (e.g., the entity's share price)
- excluding the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to save or hold shares for a specific period of time).

The equity instruments generally vest in a graded manner over the vesting period. The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. The fair value determined at the grant date is expensed over the vesting period of the respective tranches of such grants. At the end of each period, the entity revises its estimates of the number of options that are expected to vest based on the non-market vesting and service conditions. It recognises the impact of the revision to original estimates, if any, in profit or loss, with a corresponding adjustment to equity.

Where shares are forfeited due to a failure by the employee to satisfy the service conditions, any expenses previously recognised in relation to such shares are reversed effective from the date of the forfeiture

Cancellation or settlements are accounted as an acceleration of vesting, and therefore recognised immediately the amount that otherwise would have been recognised for services received over the remainder of the vesting period.

If new equity instruments are granted to the employee and, on the date when those new equity instruments are granted, Group identifies the new equity instruments granted as replacement equity instruments for the cancelled equity instruments, the Group accounts for granting of replacement equity instruments in the same way as a modification of the original grant of equity instruments. When the terms of an equity-settled award are modified, the Group recognizes as a minimum, the services received measured at the grant date fair value of the equity instruments granted, unless those equity instruments do not vest because of failure to satisfy a vesting condition (other than a market condition) that was specified at grant date. An additional expense is recognised for any modification that increases the total fair value of the share based payment transaction, or is otherwise beneficial to the employee as measured at the date of modification.

Payments made to the employee on the settlement of the options is accounted for as the repurchase of an equity interest, i.e. as a deduction from equity, except to the extent that the payment exceeds the fair value

Notes to consolidated financial statements

of the equity instruments granted, measured at the repurchase date. Any such excess is recognised as an expense and presented as cash flow from operating activities in the statement of cash flows. Any excess or shortfall between the repurchase date fair value and grant date fair value and excess in repurchase date fair value over the payments made is transferred to retained earnings. Amounts paid to the extent of the repurchase date fair value are presented as cash flow from financing activities in the statement of cash flows.

## (W) Earnings per share

## (i) Basic earnings per share

Basic earnings per share is calculated by dividing:

- the profit attributable to owners of the Group
- by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

## (ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account:

- the after income tax effect of interest and other financing costs associated with dilutive potential equity shares, and
- the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

## (X) Non-current assets (or disposal groups) held for sale and discontinued operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets and contractual rights under insurance contracts, which are specifically exempt from this requirement.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the Consolidated Balance Sheet. The liabilities classified as held for sale are presented separately from other liabilities in the Consolidated Balance Sheet.

A discontinued operation is a component of the entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or geographical area of operations, is part of a single coordinated plan to dispose of such a line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the Consolidated Statement of Profit and Loss.

## (Y) Put liability

The Group enters into business combination arrangements which may include terms where the Group has written put options or a purchased call option along with the written put, over the equity of a subsidiary which permit the holder to put their shares in the subsidiary back to the Group at the exercise price specified in the

Notes to consolidated financial statements

arrangement. The Group analyses the terms of such arrangements to assess whether they provide the Group or the non-controlling interest with access to the risks and rewards associated with the actual ownership of the shares.

The non-controlling interest is recognized only if risks and rewards associated with ownership have been retained by the non-controlling interest. In such case, the amount that may become payable under the option on its exercise is initially recognized at the present value of the redemption amount within other financial liabilities (presented as "Put Liability") with a corresponding charge directly to equity. Subsequent changes in put liability are recognized within equity.

If the risks and rewards associated with ownership are transferred to the Group, a non-controlling interest is not recognized. In such case, the put liability is recognized as part of the purchase consideration for the business combination with a corresponding effect on goodwill. The put liability is subsequently accreted through finance charges up to the redemption amount that is payable on the date at which the option first becomes exercisable. In the event that the option lapses unexercised, a non-controlling interest is then recognized at an amount equal to its share of the carrying values of the subsidiary's net assets at the date of lapse. Any difference between the put liability and the non-controlling interest is recognized within equity.

## (Z) Contributed equity

Equity shares are classified as equity. Compulsory convertible instruments such as preference shares and/or debentures that will be or are expected to be settled in the Company's own equity instruments are classified as equity if they are expected to be settled into a fixed number of equity shares. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

## (AA) Exceptional items

An item of income or expense which by its size, type or incidence requires disclosure in order to improve an understanding of the performance of the Group is treated as an exceptional item and the same is disclosed in the financial statements.

## (AB) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest million Rupees as per the requirement of Schedule III, unless otherwise stated.

## Notes to the consolidated financial statements as at and for the year ended March 31, 2023

### 5A Impairment of non financial assets

For impairment testing, goodwill acquired through business combinations has been allocated to the Distribution to Chemist/ institutions, Distribution to Retailers, IT operations and Diagnostics CGUs.

## Following are the details with respect to carrying amount of goodwill allocated to various CGUs:

IT operations	9,158.67	6,575.09	2,583.58
Diagnostics	49,555.10	4,237.04	45,318.06
Total	83.626.45	12.671.00	70.955.45

The Group performed its annual impairment test as of the reporting date for year ended March 31, 2023 and March 31, 2022. Basis the said testing it has been determined that goodwill has been impaired in case of Distribution to Chemist/ institutions, IT operations and Diagnostics CGUs as of March 31, 2023 and March 31, 2022.

Considering the outlook of the current economic environment and other macro economic factors, management has drawn an operating plan in light of the latest available information. Basis the operating plan, a downward revision to projections was necessitated and accordingly, it has been determined that an impairment would be required to be considered in the financial statements.

## **Distribution to Retailers CGU**

Distribution to retailers typically includes selling goods to the registered sellers on the PharmEasy marketplace. The recoverable amount of the Distribution to Retailers CGU as at March 31, 2023 and March 31, 2022 has been determined using the fair value less cost to sell ('FVLCTS') approach. FVLCTS (level 3) is determined by an independent valuer using revenue based multiples derived from comparable listed companies in the world. Basis the valuation carried out, the Group has determined that no impairment is required to be recognised since the recoverable amount of the CGU is greater than its carrying amount.

Sensitivity analysis performed around the base assumptions do not indicate any reasonable possible change in key assumptions that would cause the recoverable amount of the this CGU to be less than their respective carrying value.

#### IT operations CGU

IT operations includes operations related to technology platform and sale of software. The recoverable amount of the IT operations CGU, is Nil as at March 31, 2023 (Rs 2,864.82 as at March 31, 2022), has been determined using the fair value less cost to sell ('FVLCTS') approach. FVLCTS (level 3) is determined by an independent valuer using venture capital ('VC') method. VC method is most common approach to value young / pre-revenue companies. It is valuation based on expectation of venture capital investor. Investors will seek a return equal to some multiple of their initial investment or will seek to achieve a specific internal rate of return based upon the level of risk they perceive in the venture. VC method incorporates this understanding and uses the relevant time frame in discounting a future value attributable to the firm.

As a result, management has recognised an impairment charge of Rs. 2583.58 (March 31, 2022: Rs 6,575.09) in the current year against goodwill, previously carried at Rs. 2,583.58 (March 31, 2022: Rs 9,158.67). The impairment charge is recorded in the statement of profit and loss and presented as an exceptional item (refer note 44).

Notes to the consolidated financial statements as at and for the year ended March 31, 2023 (All amounts in Ruppes millions, unless otherwise stated)

## Distribution to Chemist/ institutions CGU

Distribution to Chemist/ institutions typically includes selling goods to the pharmacies and hospitals, both directly as well as using technology provided by Retailio. The recoverable amount of the Distribution to Chemist/ institutions CGU, Rs 22,891.90 as at March 31, 2023 (Rs 23,944.12 as at March 31, 2022), has been determined based on a value in use calculation using cash flow projections from financial budgets approved by the management covering a five-year period. The projected cash flows have been updated to reflect the current market situation. These projected cash flows are discounted to the present value using a weighted average cost of capital (discount rate). The discount rate is commensurate with the risk inherent in the projected cash flows and reflects the rate of return required by an investor in the current economic conditions. The pre-tax discount rate applied to cash flow projections for impairment testing during the current year is 17.86% (March 31, 2022: 17.62%) and cash flows beyond the five-year period are extrapolated using a 4.00% growth rate (March 31, 2022: 4.00%) that is the same as the long-term average growth rate for similar companies in the industry. As a result of this analysis, management has recognised an impairment charge of Rs 2,195.65 (March 31, 2022: Rs 14,464.22). The impairment charge is recorded in the statement of profit and loss and presented as an exceptional item.

#### **Diagnostics CGU**

Diagnostic services are provided to hospitals, diagnostic companies, independent phlebotomists and consumers including on PharmEasy marketplace. The recoverable amount of the Diagnostics CGU, Rs 31,829.13 as at March 31, 2023 (March 31, 2022: Rs 46,067.00), has been determined based on a value in use calculation using cash flow projections from financial budgets approved by the management covering a five-year period. The projected cash flows have been updated to reflect the current market situation. These projected cash flows are discounted to the present value using a weighted average cost of capital (discount rate). The discount rate is commensurate with the risk inherent in the projected cash flows and reflects the rate of return required by an investor in the current economic conditions. The pre-tax discount rate applied to cash flow projections for impairment testing during the current year is 12.74% (March 31, 2022: 14.53%) and cash flows beyond the five-year period are extrapolated using a 5.00% growth rate (March 31, 2022: 5.00%) that is the same as the long-term average growth rate for similar companies in the industry. As a result of this analysis, management has recognised an impairment charge of Rs 23.476.87 (March 31, 2022: Rs 42.37.04) in the current year against goodwill, previously carried at Rs 45.318.06 (March 31, 2022: Rs 49.555.10). The impairment charge is recorded in the statement of profit and loss and presented as an exceptional item.

### Following key assumptions were considered while performing impairment testing : -

#### Level 1

This includes the fair value of financial instruments traded in active markets which is based on quoted market prices at the end of the reporting period. The mutual funds are valued using the closing NAV.

## Level 2

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques which maximise the use of observable market data and rely as

little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

#### Level 3

If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. There are no transfers between the levels during the year.

## Valuation processes

The finance department of the group includes a team that performs the valuations of financial assets and liabilities required for financial reporting purposes, including level 3 fair values. This team reports directly to the Chief Financial Officer (CFO). The team takes assistance of external valuation experts, wherever required.

#### Financial risk management

The Group's activities expose it to credit risk, liquidity risk and market risk. The Group's overall risk management program focuses on robust liquidity management as well as monitoring of various relevant market variables, thereby consistently seeking to minimize potential adverse effects on the Group's financial performance. This note explains the sources of risk which the Group is exposed to and how the Group manages the risk and the related impact in the financial statements.

#### Credit risk

Credit risk is the risk that a counterparty fails to discharge its obligation to the Group. The maximum credit risk comprises the carrying amounts of the financial assets. The Group's exposure to credit risk arises mainly from cash and cash equivalents, trade receivables, security deposits, investments, loans and other financial assets. The Group continuously monitors defaults of customers and other counterparties and incorporates this information into its credit risk controls.

## a) Credit risk management

Credit risk rating

The group assesses and manages credit risk of financial assets based on following categories arrived on the basis of assumptions, inputs and factors specific to the class of financial assets. A: Low credit risk

B: Moderate credit risk C: High credit risk

Credit rating		As at	As at
cicult ruting	Particulars	March 31, 2023	March 31, 2022
A: Low credit risk	Cash and cash equivalents, Other bank balances, trade receivables, security	15,876.19	15,007.68
	deposits, investments and other financial assets		

Notes to the consolidated financial statements as at and for the year ended March 31, 2023 (All amounts in Rupees million, unless otherwise stated)

#### b) Credit risk exposure

### Cash and cash equivalent and other bank balances

Credit risk related to cash and cash equivalents is managed by accepting highly rated banks and diversifying bank deposits and accounts in different banks across the country. Management does not expect any losses from non-performance by these counterparties.

### Other financial assets measured at amortized cost

Other financial assets measured at amortized cost includes bank deposits, loans, advances and other receivables. Credit risk related to these assets is managed by monitoring the recoverability of such amounts continuously, while at the same time internal control system in place ensures that amounts are within defined limits. The expected credit loss on these financial instruments is expected to be insignificant.

#### Trade and other receivables

The Group has used a practical expedient by computing the expected credit loss allowance for trade receivables based on a provision matrix. The provision matrix takes into account historical credit loss experience and adjusted for forward-looking information. The expected credit loss allowance is based on the ageing of the days for which the receivables are due and the expected loss rates have been computed based on ageing.

### Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due.

Management monitors rolling forecasts of the group's liquidity position and cash and cash equivalents on the basis of expected cash flows. The Group takes into account the liquidity of the market in which the group operates. The Group manages its liquidity risk by ensuring that sufficient funds are available through a combination of equity and debt financing.

#### Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risks – foreign currency risk, interest risk and price risk.

Notes to the consolidated financial statements as at and for the year ended March 31, 2023

(All amounts in Rupees million, unless otherwise stated)

#### Foreign currency risk

The Group is exposed to currency risk to the extent that there is a mismatch between the currencies in which sales and purchases are denominated and the functional currency of Group. The functional currency for large number of transactions of the Group is INR and majority of the customers the Group dealt with operate from India only.

A reasonably possible strengthening (weakening) of the INR or US dollar at March 31, 2023 would have affected the measurement of financial instruments denominated in foreign currency and affected profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast sales and purchases.

Particulars	Prof	it or loss
	Strengthening	Weakening
March 31, 2023	-2,621.35	2,621.35
INR (10% movement)		
March 31, 2022		
INR (10% movement)	5.77	(5.77)

#### Price risk

The Group's investment in certain equity shares is exposed to price risk, for detail refer note 47(i).

#### Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

## Below is the overall exposure of the group to interest rate risk:

Particulars	As at March 31, 2023	As at March 31, 2022
Variable rate borrowing	31,329.05	2,985.34
Fixed rate borrowing	10,500.27	22,868.90
Total borrowings	41,829.32	25,854.24

## Sensitivity analysis

Below is the sensitivity of profit or loss and equity changes in interest rates on variable rate borrowings:

Particulars	As at March 31, 2023	As at March 31, 2022
Interest Sensitivity*		
Interest rates – increase by 100 basis points	313.29	29.85
Interest rates – decrease by 100 basis points	(313.29)	(29.85)
* Holding all other variables constant		

### **Capital management**

The Group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders, and to maintain an optimal capital structure to reduce the cost of capital.

To maintain or adjust the capital structure, the Group may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Group monitors capital using a gearing ratio, which is net debt (total borrowings and lease liabilities net of cash and cash equivalents) divided by total equity (including non-controlling interest).

## The capital structure is as follows:

Particulars	As at	As at	
	March 31, 2023	March 31, 2022	
Borrowings	41,199.84	25,854.23	
Less: Cash and cash equivalents	1,936.48	1,543.97	
Net debt	39,263.36	24,310.26	
Equity	24,368.89	70,224.81	
Total Equity	24,368.89	70,224.81	
Net debt equity ratio	161.12%	34.62%	

The net debt to equity ratio for the current year increased from 34.62% to 161.12% as a result of new borrowings taken during the year and decrease in equity is mainly on account of impairment and operational losses incurred during the year.

During the year the Company has issued non convertible debentures to Goldman Sachs India AIF Scheme-1 and Goldman Sachs India Alternative Investment Trust AIF Scheme-2 (collectively referred to as "Goldman Sachs") and EvolutionX Debt Capital Master Fund 1 Pte. Ltd. ("EvolutionX") (refer note 21 (i)). For details of the NCD terms, compliance to the covenants agreed in the debenture trust deed ("DTD") and subsequent actions taken by the Company are as follows:

Issuance of Tranche 1 Debentures (Tranche 1 NCDs): On June 23, 2022, the Company issued and allotted 1,52,000 unlisted, unrated, secured, redeemable, non-convertible debentures

("NCDs") of a face value of INR 1,00,000 (Indian Rupees One Lakh only) each aggregating up to an amount equivalent to Rs. 15,200 to Goldman Sachs.

Issuance of Tranche 2 Debentures (Tranche 2 NCDs): On June 23, 2022, the Company issued and allotted 76,000 NCDs of a face value of INR 1,00,000 (Indian Rupees One Lakh only) each aggregating up to an amount equivalent to Rs. 7,600 to Goldman Sachs.

Redemption of Tranche 1 NCDs and Tranche 2 NCDs: On September 30, 2022, the Company redeemed 13,200 Tranche 1 NCDs and 6,600 Tranche 2 NCDs held by Goldman Sachs.

# Notes to the consolidated financial statements as at and for the year ended March 31, 2023 (All amounts in Rupees million, unless otherwise stated)

Issuance of Tranche 3 Sub-Tranche A Debentures (Tranche 3A NCDs): On September 30, 2022, the Company issued and allotted 13,200 NCDs of a face value of Rs. 1,00,000 (Indian Rupees One Lakh only) each aggregating up to an amount equivalent to Rs. 1,320 to EvolutionX.

Issuance of Tranche 3 Sub-Tranche B Debentures (Tranche 3B NCDs): On March 8, 2023, the Company issued and allotted 13,200 NCDs of a face value of Rs. 1,00,000 (Indian Rupees One Lakh only) each aggregating up to an amount equivalent to Rs. 1,320 to EvolutionX.

Issuance of Tranche 4 Sub-Tranche B Debentures (Tranche 4B NCDs): On March 8, 2023, the Company issued and allotted 6,600 NCDs of a face value of Rs. 1,00,000 (Indian Rupees One Lakh only) each aggregating up to an amount equivalent to Rs. 660 to EvolutionX.

Redemption of Tranche 1 NCDs and Tranche 2 NCDs: On March 8, 2023, the Company redeemed 10,662 Tranche 1 NCDs and 5,271 Tranche 2 NCDs held by Goldman Sachs.

Issuance of Reservation of Rights Letters ("ROR Letters"): Vistra ITCL (India) Limited ("Debenture Trustee") issued reservation of rights letters whereby they inter alia (i) intimated the Company of its failure to comply with some covenants under the third amended and restated debenture trust deed dated September 13, 2022 ("DTD") executed between the Company and the Debenture Trustee as a result of which certain events of default (EODs) had occurred and were continuing, and (ii) directed the Company to take certain actions to cure such EODs within timelines mentioned in the ROR Letters.

Undertaking Rights Issue: One of the conditions under the ROR Letters issued by Goldman Sachs was to undertake a minimum fund raise of Rs. 20,000 million. In order to, inter alia, comply with this fund raise condition, the Company undertook a rights issue in September 2023, for an amount up to Rs. 35,000 million by way of issuance of Series B compulsorily convertible preference shares of the Company ("CCPS B"). Company has subsequently received subscriptions of approximately INR 18,673 million which has been allotted by December 5, 2023. The rights issue is still oepn as on the date of approval of financial statements.

Execution of Framework Agreement: On December 1, 2023, the Company and the Debenture Trustee entered into a framework agreement ("Framework Agreement").

#### Key terms of the Framework Agreement are as follows:

-Waivers granted as part of the settlement: As part of the Framework Agreement, previously identified defaults of certain covenants of the DTD as well as other matters (including material breach of other representations, conditions and covenants) disclosed as part of the disclosure letter to the Framework Agreement have been agreed to be waived. General waiver has also been provided to all defaults including breach of financial covenants set forth in the DTD.

-Conditions to settlement: Goldman Sachs / EvolutionX have stipulated certain pre-conditions to the settlement which includes raising Rs. 20,000 by way of a rights issue; and execution of revised shareholders agreement of the Company.

As part of the settlement, Company will redeem (i) Tranche 2 NCDs having nominal value of Rs. 6,413; (ii) Tranche 4A NCDs having nominal value of Rs. 6,600; and (iii) Tranche 4B NCDs having nominal value of Rs. 8, 6,600 as following:

#### a. Cash payment

## b. CCPS B issuance amounting to USD 36.5 million.

The settlement needs to be completed by April 05, 2024. The terms of the Tranche 1 NCDs, Tranche 3A and 3B NCDs which will survive the settlement and remain outstanding shall be governed by the provisions of the fourth amended and restated debenture trust deed executed between the Company and the Debenture Trustee on December 1, 2023.

## 49 Employee benefit obligation

## a. Defined contribution plans

The Group contributions towards provident fund managed by the Central Government and towards employees state Insurance contribution scheme in pursuance of ESI Act, 1948 (as amended) which is debited to statement of profit and loss as incurred. The Group has no obligation other than making contribution to the fund.

During the year, the Group has recognised the following amounts in the statement of profit and loss, which are included in contribution to provident and other funds.

Particulars	For the year ended March 31, 2023	For the year ended March 31, 2022
Contribution to provident and other funds	232.81	174.55

### b. Leave obligation

The leave obligation cover Group's liability for compensated absences which are classified as other long term benefits. The entire amount of the provision of Rs. 189.47 (March 31, 2022: 245.30) is presented as current, since the Group does not have an unconditional right to defer settlement for any of these obligations. However, the Group does not expect all employees to avail the full amount of accrued leave or require payment for such leave within next 12 month. Leave obligation not expected to be settled within next 12 month is Rs. 93.6 (March 31, 2022: Rs 18.22).

### c. Post-employment obligations

#### Gratuity

The Group provides for gratuity to employees as per Payment of Gratuity Act, 1972. Every employee who has completed five years or more of continuous service gets a gratuity on death or resignation or retirement at 15 days basic salary (last drawn salary) for each completed years of services as per Group policy.

The provision for gratuity is actuarially determined using the 'Projected Unit Credit Method' as at the year end. Gains/ losses on changes in actuarial assumptions are accounted for in the Other Comprehensive Income.

The following table sets out the status of the gratuity plan as required under Ind AS 19 'Employee benefits'.

## Sensitivity Analysis

Particulars	As at March 31, 2023	As at March 31, 2022
a) Impact of the change in discount rate		
i) Impact due to increase of 1%	(13.41)	(19.74)
ii) Impact due to decrease of 1%	15.55	21.46
b) Impact of the change in salary increase		
i) Impact due to increase of 1%	14.45	21.44
ii) Impact due to decrease of 1%	(12.91)	(18.91)
c) Impact of the change in attrition rate		
i) Impact due to increase of 50%	(19.11)	(23.46)
ii) Impact due to decrease of 50%	27.49	35.63
d) Impact of change in Mortality Rate		
i) Impact due to increase of 10.00%	(0.00)	(0.37)
ii) Impact due to decrease of 10.00%	0.16	0.45

The above sensitivity analysis are based on a change in an assumption while holding all other assumptions constant. In practice, this is unlikely to occur, and changes in some of the assumptions may be correlated. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the defined benefit liability recognised in the Balance Sheet.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the prior period.

### **Risk Exposure**

Through its defined benefit plans, the Group is exposed to a number of risks, the most significant of which are detailed below:

The Gratuity scheme is a Defined Benefit Plan that provides for a lump sum payment made on exit either by way of retirement, death, disability or voluntary withdrawal. The benefits are defined on the basis of final salary and the period of service and paid as lump sum at exit. The Plan design means the risks commonly affecting the liabilities and the financial results are expected to be:

### Interest rate risk:

The defined benefit obligation calculated uses a discount rate based on government bonds. If bond yields fall, the defined benefit obligation will tend to increase.

#### Demographic risk:

The Group has used certain mortality and attrition assumptions in valuation of the liability. The Group is exposed to the risk of actual experience turning out to be worse compared to the assumption.

Notes to the consolidated financial statements as at and for the year ended March 31, 2023 (All amounts in Rupees million, unless otherwise stated)

### Salary Risk:

The present value of the defined benefit plan is calculated with the assumption of salary increase rate of plan participants in future. Deviation in the rate of increase of salary in

future for plan participants from the rate of increase in salary used to determine the present value of obligation will have a bearing on the plan's liability.

## Defined Benefit Liability and Employer Contributions:

The Group has purchased an insurance policy to provide for payment of gratuity to the employees. Every year, the insurance company carries out a funding valuation based on the latest employee data provided by the Group. Any deficit in the assets arising as a result of such valuation is funded by the Group.

Expected contributions to gratuity plans for the year ending March 31, 2024 : Rs. 34.65 (March 31, 2023: Rs. 27.99)

The weighted average duration of the defined benefit obligation is 3 to 17 years (March 31, 2022: 6 to 18 years)

## Maturity profile of defined benefit obligation

Particulars	As at	As at
	March 31, 2023	March 31, 2022
Less than a year	31.83	16.87
Between 1 to 5 years	106.66	97.84

## Computation of goodwill on acquisition

The excess of the consideration transferred over the fair value of the net assets acquired is allocated to goodwill as computed below. Goodwill is primarily attributed to supplier relationships, huge customer database, workforce acquired and other intangibles as a part of the business combination which do not meet the separability criterion.

Notes to the consolidated financial statements as at and for the year ended March 31, 2023 (All amounts in Rupees million, unless otherwise stated)

Particulars	Amount
	(Rs in million)
Total fair value of the consideration transferred for purpose of computing goodwill	48,952.92
Add: Fair value of vested employee share based payments considered as non-controlling interest	79.13
Add: Non-controlling Interest in Thyrocare *	2,479.01
Less: Net identifiable assets acquired	(8,613.04)
Goodwill on acquisition	42,898.02
* Non-controlling interest was valued at fair value on the date of acquisition.	

The fair value of acquired trade receivable is Rs. 945.60. The gross contractual amount for trade receivable due is Rs. 1,005.60 with a loss allowance of Rs. 60.10.

The acquired business contributed revenues and profits to the Group for the year March 31, 2022 as follows:

Thyrocare : Revenue of Rs. 3,014.10 and total comprehensive income of Rs. 607.90.

If the acquisitions had occurred on April 01, 2021, consolidated revenue and profit for the year ended March 31, 2022 would have increased by Rs. 2,874.50 and Rs. 1,154.70 respectively. These amounts have been calculated using the subscitatory's results.

Acquisition related cost of Rs. 336.28 that were not directly attributable to the issue of shares are included in the other expenses in the statement of profit and loss and in operating cashflows in the statement of cashflows.

#### (iii) Acquisition of Akna Medical Private Limited (Akna or Acquiree)

Pursuant to shareholder purchase agreements between API ("Acquirer"), Akna and its Investors, API agreed to acquire 2.27% of the equity share capital on fully diluted basis (76,075 equity shares) from Angel Investors for Rs. 240.09 in cash and 35.92% of the equity share capital on fully diluted basis (1,204,133 equity shares) from Promoters and other sellers for Rs. 3,687.00 in cash. API further subscribed to 975,935 shares (representing 29.11% equity interest) for a consideration of Rs. 308.0

Akna along with its subsidiaries and associates (collectively the group) are engaged in the business of wholesale trading of Medical supplies including pharmaceutical, surgicals, healthcare consumables, vaccines and other allied health care products.

#### The purchase consideration for acquisition of Akna was discharged in cash.

In addition to the above and along with the shareholder purchase agreements mentioned above, API entered into separate agreements with non-controlling shareholders, respectively, whereby API holds a call option to purchase shares held by these shareholders (representing 32.70% equity interest) if specified EBITDA thresholds for the year ended March 31, 2023 are not met by end of the specified period in the respective agreements. These shareholders, in turn, hold a put option to put the shares to API at any time by end of the specified period defined in these agreements. API in October 2022 and November 2022, acquired 45,886 equity shares of Akna from Annel Investors for an agreerate consideration of Bs. 144.81 (representing 137% equity interest).

These options are priced at a fixed price. Accordingly, on the date of acquisition the Group has recognised a liability amounting to Rs. 4,643.85 in the consolidated financial statements with respect to this obligation. Further in August 2022, API entered into an revised agreement, with shareholder represeing 31.33% equity interest, whereby revised terms for sale of shares were agreed. Consequently, the Group has remeasured the options liability as 5.55,63 as at March 31.2023.

The Group has determined that the risks and rewards with respect to the call and put options held by the Group and non-controlling shareholders, respectively, reside with API and therefore no non-controlling interest has been recognized in respect of this acquisition in the consolidated financial statements. Accordingly, though the Group holds 68.37% (March 31, 2022: 67.30%) of voting interests in Akna, it holds 100% economic interest.

The liability has been measured at present value of the amount required to settle the obligation and the subsequent changes in the liability of Rs. 439.14 (March 31, 2022: Rs. 257.46 ) has been recognised directly in equity for the year ended March 31, 2023.

### 54 Contingent liabilities and Commitments

(i) The Group has evaluated the impact of the recent Supreme Court Judgment in case of "Vivekananda Vidyamandir And Others Vs The Regional Provident Fund Commissioner (II)West Bengal" and the related circular (Circular No C-I/1(33)2019/Vivekananda VidyaMandir/284) dated March 20, 2019 issued by the Employees' Provident Fund Organisation in relation to non-exclusion of certain allowances from the definition of "basic wages" of the relevant employees for the purposes of determining contribution to provident fund under the Employees' Provident Funds & Miscellaneous Provisions Act, 1952. Based on the assessment made by the management, the said judgment does not have any significant impact on these financial statements. The Group will continue to monitor and evaluate its position based on future events and developments.

#### Note (i):

Mr. A. Sundararaju and Mr. A. Velumani (the "Peritioners") have filed commercial suits against API Holdings Limited amongst 6 other respondents, before Hon'ble Bombay High Court. As per the suits, the Petitioners have claimed a sum amounting to Rs 2,611.47 (March 31, 2022- Rs. 518.50) against the respondents while alleging that the Company has colluded with the legal advisors of the Petitioners to facilitate the sale of shares of Thyrocare Technologies Limited by the Petitioners to Docon Technologies Limited through an off-market transaction, rather than as an on-market sale. Since the claim amount is jointly mentioned by the petitioner for all 7 respondents, claim amount pertaining to the Company is not separately ascertainable.

#### Note (ii):

Pending resolution of the respective proceedings, it is not practicable for the Group to estimate the timings of cash outflows, if any, in respect of the above as it is determinable only on receipt of judgments/ decisions pending with various forums/ authorities.

The Group has reviewed all its pending litigations and proceedings and has disclosed the above contingent liability. The Group does not expect the outcome of these proceedings to have an adverse effect on its financial statements.
