ABOUT

Polymarket is a decentralized information markets platform which aims to offer event prediction markets to individuals interested in speculating on future events. By connecting to the platform through an Ethereum-compatible wallet, the company's mission is to help people use the USDCstablecoin to place bets on events. Polymarket was founded in 2020 by Shayne Coplan and is headquartered in New York, NY.

RISKS

- You could lose money. Private companies can fall in value, and late-stage rounds are priced for strong growth.
- Your money is locked in. There is no daily price and no guaranteed way to sell.
- The listing could take years, or never happen.
- Information is limited: private companies publish far less than listed ones.
